

IN THE SPECIFICATION

Please replace paragraph [0026] with the following amended paragraph:

[0026] Data from a data stream is placed in to memory **330** as it arrives,[[,]] and a counter (not shown) is used to keep a count of the number of complete frames in memory (e.g., the counter increments a count upon detection of an end of packet). Note that control codes are typically not accumulated and stored in respective queues.
